ResiRest

Travel Global, Eat Local
Imagine 4 boys in the age of 18-19 years old, celebrating their high school graduation and going to Jamaica for the sun, sea, sex, drugs and reggae……uh……going to Jamaica for sun, sea and the beatifull country 😊.

Then, when they were out of money after five days, they had to work and connected with locals for several months...

Back to the Netherlands in the plane they heard people talking about a Jamaica they didn’t see. They have seen a Jamaica through the eyes of the locals. One of those boys is standing right in front of you now.
